*Election/Restrictions*

In view of the applicant's amendment filed on June 22, 2005, the applicant is required to elect one of the inventions as listed below.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 6,8,9,11,15-23, drawn to a display device, classified in class 40, subclass 594.
- II. Claims 24-30, drawn to a method of hanging/manufacturing a wall covering, classified in class 29, subclass 428.

The inventions are distinct, each from the other because of the following reasons:

Inventions I. and II. are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be made by another and materially different process such as placing an object on a wallpaper substrate, attaching a transparent sheet over the object, securing three sides of the transparent sheet to the wallpaper substrate, and attaching the wallpaper substrate to a wall.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 3611

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
